WILL FRISCO SYSTEM BUILD TO PADUCAH?

Reported it Has Purchased the T. C. and Will Build From Joppa to Hopkinsville Via Paducah.

The most important railroad change to Paducah reported in many years is that announced in a dispatch sent out of Nashville last night, as follows:

Nashville, Tenn., April 14.—"Tennessee Central," "Frisco System," is to be the title of the Tennessee Central railroad in near future if the plans of both companies are carried out as indicated by the highest officials of the two companies in Nashville today.

While the full details of the deal were not given out it was learned that the absorption of the Tennessee Central by the Frisco system had been practically consummated and that only the minute details of the consolidation remained to be made.

In the party here today were J. C. Van Blarcom, president of the Tennessee Central; H. F. Youkum, chairman of the board of the Frisco system, and A. J. Davidson, president of the Frisco.

President Van Blarcom passed through Nashville Thursday morning and in company with George A. Clarke, vice president and general manager left for a tour of the road. At Harriman this morning they were joined by Mr. Youkum and Mr. Davidson and the party returned to Nashville this afternoon.

The party made a thorough-inspection of the Tennessee Central's local properties and left later for Clarksville and Hopkinsville, going thence to St. Louis.

"Yes, our visit is significant," said Mr. Van Blarcom, "but we cannot give out all the facts just at present. We are not here for pleasure only, however, and you may get some official news that will interest Nashville very soon."

RUSSIAN VESSELS FOR VLADIVOSTOK

According to the Latest Report From the Far East.

Hospital Ship Left After Coalings—Had No Wounded Soldiers—No Land Engagement Yet.

WATCH KEPT FOR RUSSIAN SHIP

London, April 15.—No news throwing light on the movement of Rojestvensky's and Togo's fleets has been received here, but according to a statement made by one of the doctors on board the Russian hospital ship Orel at Saigon, the ships of the Baltic squadron were going to Vladivostok. Tuesday being the last day the Russian vessels were sighted, it is the general opinion in London that Rojestvensky has changed his course, possibly to the eastward, as otherwise it is considered certain that the fleet would have again been sighted by passing steamers.

Saigon, Cochin China, April 15.—The Italian hospital ship Orel has sailed. She remained here thirty-six hours and took aboard nine hundred tons of coal, as well as supplies of provisions and medicines.

The Russian Warships. Amoy, China, April 15.—No reports as to the whereabouts of Rojestvensky's fleet have reached here yet. Officials stationed here say it is certain that the Russian warships have not yet entered Formosa Strait.

Colliders Arrive. Hong Kong, April 15.—A number of colliders from Cardiff and Durban have arrived here awaiting orders. The cargo of the vessels it is believed, are intended for Admiral Rojestvensky.

Three to Die. Warsaw, April 15.—Three workers were found guilty of wounding a policeman in the recent labor troubles and condemned to death. One of them was arrested a few days ago.

Witte to Resign. St. Petersburg, April 15.—M. Witte, president of the council of ministers, intends to resign to accept the presidency of the Commercial bank. The czar refused to relieve Witte, but he will resign after Easter.

BODY OF PAUL JONES IS FOUND AT LAST

Was in a Lead Coffin and Easily Identified.

Long Search of Ambassador Porter at Last Rewarding—Has Notified the Government of Find.

TO BE SHIPPED TO AMERICA

Paris, April 15.—The remarkable search which Ambassador Porter has conducted for the body of John Paul Jones has been crowned with success by the discovery of the body and its identification, yesterday by the highest French medical experts as unquestionably that of the famous American admiral who founded the American navy.

Ambassador Porter waited to Washington last night, announcing the successful results of his long and difficult search. The body is in a good state of preservation, considering that the interment took place over one hundred years ago.

Hundreds of wooden caskets were found, but not until Wednesday were unearthed four leaden caskets which gave promise of containing Jones' body. Three bore plates designating the names of the deceased. The fourth showed a superior quality of workmanship. No plate was found on this casket and it is supposed it was removed when another coffin was superimposed on it.

The indications are from the above that the Frisco, which operates the C. & E. I., will now build from the C. & E. I. terminus at Joppa, Ill., to Paducah, 18 miles, and from Paducah to Hopkinsville, Ky., 75 miles, a total of less than 100 miles, which would give it a complete line from Chicago to Nashville, and the Atlantic coast. It would be the greatest thing that has happened to Paducah in many years, and would give us another of the biggest railroad systems in the United States.

The Frisco system is a system of a dozen or more lines that goes as far west as Oklahoma and Kansas, as far south as Texas, and into the east.

Yet it is only a wheel within a wheel, being part of the Rock Island, with a total mileage of 18,000.

NARROW ESCAPE.

Walls of Hudson River Tunnel Give In and Waters Rush in On Workmen.

New York, April 15.—A dozen men who were at work in a tunnel underneath the Hudson river between Jersey City and New York had a narrow escape from being drowned yesterday when the walls of the tunnel gave in and the hole was flooded. The tunnel is intended for one of trolley cars to connect the two cities.

A shaft forty-five feet deep has been sunk in Jersey City and from the foot of it a tunnel has been extended a short distance under the river bed. The men crowded a narrow ladder which led up the side of the shaft so badly and the water gained on them so fast that some of them started to climb a hoisting chain suspended in the center of the shaft. One of the men fell from the chain and would have knocked some of the others from the ladder had he not been caught by one of them as he dropped.

Before the last of the men left the tunnel the water at the foot of the shaft was four feet deep.

MOUNT SHASTA THREATENS Ground Has Opened and Oily Mud Being Ejected Through the Opening.

San Francisco, Cal., April 15.—The Examiner today says that Mount Shasta threatens to become active again. Some startling occurrences are reported at Siskiyou, a town in the vicinity of the mountain. The ground has opened at several points and mud is ejected. The railroad hill across a big canon has sunk six feet, with the streets of the little mountain town filling up with muddy slush, full of oil.

The Russian Warships. Amoy, China, April 15.—No reports as to the whereabouts of Rojestvensky's fleet have reached here yet. Officials stationed here say it is certain that the Russian warships have not yet entered Formosa Strait.

Three to Die. Warsaw, April 15.—Three workers were found guilty of wounding a policeman in the recent labor troubles and condemned to death. One of them was arrested a few days ago.

7,000 Present.

Trinidad, Colo., April 15.—Seven thousand persons, including 2,000 school children waving small flags, greeted President Roosevelt here with cheers. A number of Rough Riders and other veterans acted as a guard of honor to the president.

The president was introduced by Mayor Brown as "The Greatest Man in the World," and talked for five minutes, warmly greeting the old soldiers. Turning to the children the president told them how glad he was to see them, for he said, "You know I am as great on children as I am on irrigation, and you know what my views are on irrigation."

The remainder of his talk was on irrigation. As the train moved away the crowd broke through ropes, climbing on to his car and he shook hands with as many as possible. The train left Trinidad at 1:45.

5,000 at Pueblo.

Pueblo, Colo., April 15.—Pueblo citizens to the number of 5,000 greeted President Roosevelt upon his arrival here at 5:45 yesterday. When the train stopped the president appeared on the rear platform and began to address the crowd. His speech was interrupted by the presentation of a "big stick," the gift of school children of the city. The president spoke briefly.

Promptly at 5:50 the special pulled out over the Colorado and Southern for Colorado Springs. The trip since crossing the Colorado line has been uneventful except that at every station great crowds of people gathered to greet the chief executive.

Boys Dug up Musket Under the Celebrated "Talking Tree" in County

Mr. W.H. Albert, accompanied by a number of reputable residents of the Maxon's Mill section, came to the city today and brought in an old-fashioned musket which a son of Mr. Albert, Tommo Albert, and Charles Vance, a neighbor's boy, claim they dug up under the now-noted "talking tree" on Mr. Albert's place.

For some weeks there have been reports of this tree talking, and thousands of people have visited it. Mr. Albert has been unable to explain what causes the supposed "talking," but it has been written up all over the country by some of the largest papers, and is still a mystery.

Recently Mr. Albert decided to dig about the tree, and the other day dug down at least five feet in one place, but found nothing.

A short time afterwards his ten-year-old boy, Tom, and the Vance boy took up the digging, and were rewarded by excavating the old unmarketable fowl mentioned above. The hammer and lock are gone, but the remainder

of the gun is intact and it is the kind used during the civil war. It is well preserved and there are faint traces of what might have once been initials in places on the stock.

Much of the superstition about the tree originated from the tradition that years ago a man was murdered under it.

Many people naturally laugh at the idea that a tree could talk, but at least some swear that this one does.

Some day it may be explained what it is that makes them think so, but it hasn't been explained yet.

How the Stomach and Kidneys Depend on the Inside Nerves

Every day medical science becomes more simple and more certain. Simplicity and certainty go hand in hand. For science has learned what there are many diseases, there are a few real causes of disease. That is, there are many names by which we know aches and pains and disorders, but most of these ailments spring from a common cause.

For instance, indigestion, sour stomach, heartburn, dyspepsia and all stomach troubles—diabetes, Bright's disease and other kidney diseases—liver trouble, bowel troubles, nervousness, restlessness, sleeplessness, irritability—all of these ailments are due to a single cause. Painful, disagreeable and distressing, though they be, they are not separate diseases, and they are not to be treated as such. They are merely outward signs of general trouble in the nerves.

Indeed, the first that we have two entirely separate nerve systems. When we walk or talk, or act, we call into play a certain set of nerves—those which manage our voluntary movement. That is why the arm can be raised, or the mouth opened, or the eye shut, at the slightest desire. That is why your fingers can delicately pick up a pin one moment and hold a heavy hammer the next.

But these are not the nerves we are to consider here. There is another set of nerves which manages and governs all the functions of the heart and the stomach, the kidneys and the liver, all of the vital organs. You cannot control these nerves. By no supreme effort of mind can you make your heart stop or start—not even if you make it stop by force of mind. And so with the stomach and the liver and the kidneys and the bowels—they are automatic—they do their work in a certain way, speed whether you are awake or asleep—whether you want them to or not.

It is on these inside nerves that life and health depends. As these nerves become weak, pain and disease we are well and strong. When they fail, we know it by the inevitable symptoms—stomach, heart, liver, kidney trouble. And these symptoms have no other origin, ever than in these same nerves. For the stomach, the heart, the liver, the kidneys, have no power of their own, no self control. They obey their every impulse to the inside nerves. The nerves are the masters. The organs their slaves.

These automatic nerves are sometimes called the "sympathetic nerves." This name is given them because of the close bond of sympathy which exists between all branches. This ex-

plains why stomach trouble often develops into heart trouble—why cold digestion brings on nervousness, why pain comes when there are but a few real causes of disease.

That is, there are many names by which we know aches and pains and disorders, but most of these ailments spring from a common cause.

BOMBARDING BLACKBURN.
The batteries of the state machine are now opening up quite lively against Senator Jo Blackburn, who has won the everlasting enmity of the powers that be in Kentucky Democracy. One of the first papers to open fire on the senator is the Fulton Leader, edited by one of the statehouse officials. In Thursday's issue it says:

"Senator J. C. S. Blackburn in his speech at Williamsburg Monday made a bitter assault on those delegated by the state convention at Louisville last year to look after the affairs of the Democratic party in Kentucky. In doing this he thrust his treacherous knife into the back of the men who fought his battle when he was succeeded by Wm. Dooley."

"It is still a matter of history that Percy Hall, the young man Blackburn now denounces privately as only fit to serve as messenger boy, risked his life every night to obtain the results of the Republican caucus in order to serve old Joe Blackburn.

"It is a matter of common history that Jack Chinin, recently nominated for state senator in his district, took all sorts of chances to land Senator Blackburn in that memorable contest, and now he is classed by the distinguished senator among the villains of the vile."

"It is a matter of common history that Wm. Goebel led Joe Blackburn's fight in the days that it meant taking one's life in his hands to do it. But scarcely has the immortal Goebel grown cold in the clay that Joe Blackburn had in Washington correspondent sent out a special from the national capital proclaiming that Goebel wanted to turn over the state to Taylor, the present Republican refugee, but that, the great Blackburn, forced the contest which seated (ultimately) all the Democratic claimants to state offices.

"All of these claims of Blackburn loyalty are diagnostic to Kentuckians who know the facts as they really are. No sooner was Blackburn nominated by the legislature than he decided the train for Washington and left the "boys" contesting for the minor offices and Gov. Heckham to shift for themselves as best they could.

"Joe Blackburn was never known to help a friend, unless it was his kinsman and brother, Capt. Jim Blackburn. We defy him to disprove this statement. He has been in office so long that he thinks the Democratic party is his by right of conquest. Urey Woodson called him 'honest' Joe. When such a prefix is added to a

man's name in Kentucky, where all men are considered gentlemen until proven otherwise, it is time to ask why? Yes, why, why, why!

"Senator Blackburn is already beaten and is already preparing to square."

The Owensboro Inquirer of the same date says:

"If Joe Blackburn should be taken at his word when he says that if he is not worthy to be elected senator he ought to be beaten, he would be beaten. How can he have held on the people of this Commonwealth unless the understanding of everybody who has ever studied his case. For all the good he has ever done the state his seat might have remained vacant and for all the harm he has done there ought to be a blushing on every cheek."

The people of Kentucky are just beginning to get next to the school book graft perpetrated by the last legislature of Kentucky under the guise of a "uniform school book bill." The last edict of the state superintendent of public instruction gives the book trust absolute control of the sale of school books in Kentucky for five years. The Owensboro Inquirer says of the bill: "The school books contracted for under the state law are said to be poor editions of out-of-date books, miserably printed on rotten paper and bound with imitation cloth and leather, the backs of the poorest grade of cardboard. The school book law will be found the worst farce that has been enacted by the legislature in years. The book trust sold its books at a higher rate than they should have been sold but the books had merit in matter and construction which the contract books have not."

Hinkleville Road Lots.
We offer lots on the north side of the Hinkleville road and west of Oak Grove at \$150 for inside lots and \$200 for a corner lot and will give five years time without any cash payment to anyone who will build a house. Hydrant water will be put in out as far as 23rd street during the coming summer and it is probable that the street cars will go out on the Hinkleville road in the near future, as the new cemetery is on this road. Lots in the same addition towards Rowlandtown at \$125 for inside lots, and \$150 for corners. We will sell any of the above lots \$10 cash, balance \$10 every three months.

Words at New Hospital.

From present indications the furnishing of the private wards in the new city hospital will come easy, six rooms having been spoken for and several other citizens expressing desire to furnish a room.

The last persons to offer to furnish a room were Messrs. Joseph Friedman and John W. Kellar. They now only want to furnish a room, but to keep up the linen, etc., permanently.

The secretary of the hospital board stated this afternoon that he had no doubt but that all rooms would be furnished by the private doctors, that the institution was immensely popular and a great success.

Only One Lives Here.

There is only one applicant for the position of superintendent of the new city hospital who possesses the necessary qualification—that of being a graduate trained nurse—residing in Paducah, and this is Miss Lena Henneberger. There are two other applicants, but they do not reside here. It is said that Miss Henneberger stands an excellent chance of being chosen for the place. Most of those whose applications were at various times filed in the legislative boards applied for the position of matron, and are not trained nurse inmates.

At the St. Francis de Sales Catholic church tomorrow "Palm" and the "Holy City" will be sung at 10 o'clock mass. As usual on Palm Sunday there will be the palm branches distributed to the congregation in celebration of the day.

APRIL

A song of sunshine through the rain,
Of spring across the snow,
A balm to heal the hurt of pain,
A peace surpassing woe.
Lift up your head, ye sorrowing one,
And be ye gird of heart,
For Calvary had Easter Day,
Earth's sweetest day and gladdest day.
We're just one day apart!

The End of Lent.

Tomorrow is Palm Sunday and will be variously celebrated by the churches with especial music and services appropriate to the day. It ushers in the last week of Lent which is the most solemn of the season and there will be little or no social diversions during it.

The past week, too, has been markedly quiet from a social view-point. As yet there is little announced for any after-Easter gayeties, but there are some rumors of weddings already vibra-

—

Heart Parasit.

A party will go from here to Nashville, Tenn., on the 26th to hear "Parasit." The arrangements are not yet completed, but a number prominent in social and musical circles expect to make the trip, leaving in the morning over the N. C. and St. L. and returning the following afternoon.

—

Mrs. Flournoy "At Home."

Mrs. George Flournoy's informal Friday afternoons are very charming social and musical events. Yesterday the Musician Grieg was discussed. Mr. Harry Gilbert rendered some selections from Grieg very sympathetically and Mrs. David M. Flournoy sang with charming effect. Tom was served during the afternoon.

—

Charming Organ Recital.

Mr. Harry Gilbert gave his fourth organ recital on Wednesday afternoon from 5 to 6 o'clock at the First Christian church. One of the most attractive programs of the series was rendered, Mr. Gilbert playing with his usual finish and effect. Miss Anne Bradshaw sang very charmingly "Two Soaps From Graven," and "My Sweet Repose," responding to the last with an encore.

The audience was the largest of the season, and was a most appreciative one.

—

Standard Club.

The Standard club gave one of its pleasant entertainments at the handsome club quarters on Broadway on Tuesday evening. Euchre was played the first part of the evening. Mrs. Herman Wallerstein won the ladies' prize, and Mr. Herman Friedman captured the gentleman's prize. Both were very elegant souvenirs. After the cards, the younger members of the club enjoyed dancing.

These affairs are given bi-weekly.

Harbour's Book Department.

day afternoon in the lecture room of the First Baptist church. Rev. T. J. Newell of the Broadway Methodist church made an able address on the growth and broadening work by the organization since its beginning in 1874. Mrs. H. H. Wiley gave very effectively the pathetic story, "A Little Child Shall Lead Them," and as an encore recited "The Devil." There were some good musical features and two new members were secured as a result of the pleasant and instructive meeting.

B. A. H. Meeting.

The Paducah chapter, Daughters of the American Revolution, held the regular meeting for April on Friday afternoon with Mrs. George C. Thompson on West Broadway. It was an informal meeting, many of the members being out of the city, in the absence of Mrs. H. S. Wells, the regent, Mrs. M. H. Nash, the vice-regent, presided. The feature of interest was an original story of Louisa-ann by Mrs. David G. Murrell, the authoress. The occasion was a most pleasant one.

Pleasant Event.

The formal opening of the Y. M. C. A. tennis grounds on Kentucky avenue on Friday afternoon from 3 to 6 o'clock was quite a pleasant social event. The affair was in charge of the tennis committee of the association: Messrs. Bea Matthies, W. D. Deakin, J. H. Grogan and Harry Llan. The match games were participated in by a number of crack players and were most interesting. Delightful phosphates and cake were served by the woman's committee of the Y. M. C. A. during the afternoon.

Delightful Affair.

An informal reception was given last evening at the residence of Mr. and Mrs. Lon Polk on the Mayfield road, in honor of Dr. and Mrs. William T. Polk of Pine Bluff, Ark., who are here on their bridal trip. Quite a number were out from town and the occasion was a most pleasant and enjoyable one.

Announcements.

The Delphic club will meet on Tuesday morning at the Carnegie library.

Entre Nous Club.

Mrs. Bruce Wearne entertained the Entre Nous club very delightfully at cards on Tuesday afternoon at her home on Broadway. It was a strawberry party, the pretty idea being emphasized in various ways. The tiny cards were hand painted strawberries, and the punches were indicated by pins stuck in strawberry candies. The prizes, also, carried out the strawberry effect. Miss Manie Cobb won the first prize, and Miss Robbie Loving the hooby prize. The pretty luncheon had a strawberry course. The guests were Mesdames Henry Grace, Ed. Toof; Misses Helen Alcott, Lillie Mae Winstead, Robbie Loving, Sarah Sanders, Ruth Rogers, Manie Cobb, Marjorie Bagby, May Owen, Nell Holland, Lillie Mac McGlathery.

Delphic Club.

The Delphic club met on Tuesday morning at the Carnegie library and were "personally conducted" to many Parisian landmarks; or as a bright member cleverly sized it: "crossed the bridges, entered the gates, climbed the columns, and stood on the arches, enjoying a most delightful view of Paris from an historical perspective."

Mrs. Elizabeth Austin was the guide to "The Place Vendome and Its Columns;" Mrs. Frank Barnard through "the Old Gates and Bridges of Paris;" Mrs. Muscoe Burritt explained the glories of "The July Column;" and Mrs. John Campbell of "The Triumphal Arches."

The club will have two more meetings and then disbands for the summer. "The Women of France" will be studied next season.

Magazine Club.

Mrs. Armour Gardner was hostess to the Magazine club on Thursday afternoon at her attractive home on Fountain avenue. The opening quotations were from Kipling and were especially clever. Following this, Mrs. Robert Beecher Phillips gave in her charming style Kidling's little story "Three and One of Them."

Harper's Magazine was represented by Miss Orr V. Leigh and Miss Henrietta Koger. Miss Leigh gave a timely sketch, "My Exile in Siberia," and Miss Koger reported "The Hook-Shell." Miss May Lee Clarke from Everybody's Magazine, gave an account of "Jewel in India." Mrs. Hal Corbett in her role of war correspondent, told very vividly "A Scene at Port Arthur."

The delightful course luncheon, served after the reports, included strawberries in the menu.

Interesting Meeting.

An interesting special meeting of the Woman's Christian Temperance Union of the city was held on Thursday.

New Spring Styles Just Hatched

COME next week early and see them. It has taken weeks and months of planning to get together such a carnival of Easter finery. From the little tots to grown up men there's new dress ideas for all. Hand-tailored clothing is our hobby. It's the merchant tailor method and it's the only system that makes clothes look right and satisfy till they're worn out. We offer you hand-tailored clothes for what you pay for machine made elsewhere. You can't afford to take a substitute when you can get hand-tailored for the same money. Investigate.

\$10 to \$12.50 Easter Suits for Men...

By a lucky purchase from an overstocked manufacturer we secured 500 all-wool, worsted and cheviot suits. Made in the correct spring styles. Single and double-breasted sack suits, lined and trimmed in the most satisfactory way. They're on sale now for Easter. You'll find them the best clothes for the money we, or any others, ever sold. They're yours to choose at \$10 and \$12.50.

Correct Easter Furnishings...

Those little details that add so much to your appearance are thought of in our Easter furnishings. Shirts, in all the correct colors, all sleeve lengths, cuffs attached or separate. Coat shirts, plain or pleated bosom styles. Underwear in medium or light weights — balbriggan, lisle, silk mercerized, linen mesh or all silk fabrics. Also complete showing of men's union suits.

Authoritative Easter Headwear...

Such names in a hat as Knox, Stetson, Imperial or Broadway Special stand for the very best in hats as well as a critically correct style. You find them here along with the largest show of hats in Paducah. There's a style to become you and add much to your Easter appearance. All we ask is the pleasure of showing it to you, along with the other new blocks.

Hand Tailored Easter Suits for Men...

We're satisfied that if you were to pay the tailor double you could get no better clothes made than these suits we offer at \$15 to \$30. They are imported silk and wool mixed fabrics, made to retain shape. They please you from the first; they satisfy any desire you may have to appear exclusive, because we control every style and you never find them elsewhere.

Buster Brown Styles...

Popular as ever, these little suits are shown in our ideal Children Department.

Easter styles in the new tans and shepherd plaids are here along with many others, \$4 to \$7.50.

Great Offer to Boys...

A six months' paid subscription to THE AMERICAN BOY magazine with every five dollar purchase in our Children Department. A mechanical top given with every purchase for the children.

Double- Breasted Suits...

Selected for fabrics that wear — made up with reinforced seams — double knees and seat pants, the strongest line of clothes for boys from 8 to 16. Priced at a swing, \$2 and up.

Sailor Blouse Suits...

Most popular now for little fellows. Serges, flannels and worsteds — pants bloomer or plain styles. Unusual showing at every price. \$2.50 and up.
